Researching Supply Data

**AFSAC Schoolhouse
AFSAC/IARSB**

September 2010

Integrity - Service - Excellence

Objectives - Researching Supply Data

AFSA

- 1. Validate National Stock Number (NSN) data using SAMIS QAID 283**
- 2. Validate NSN data using the AFSAC Online Catalog application**
- 3. Identify a NSN history using SAMIS QAID 180R (Stock Number Interrogation)**
- 4. Identify a NSN history using AFSAC Online (Stock Number Interrogation)**
- 5. Use WebLink to research a NSN**

Objectives - Researching Supply Data

1. Validate National Stock Number (NSN) data using SAMIS QAID 283

AFSA

2. Validate NSN data using the AFSAC Online Catalog application

3. Identify a NSN history using SAMIS QAID 180R (Stock Number Interrogation)

4. Identify a NSN history using AFSAC Online (Stock Number Interrogation)

5. Use WebLink to research a NSN

National Stock Number Review

AFSA

National Stock Number (NSN):

- **Number used to identify stock items within the federal supply system**
- **13-digit stock number consisting of:**
 - **4-digit Federal Supply Classification code (FSC)**
 - **9-digit National Item Identification Number (NIIN)**

SAMIS Catalog Data

AFSA

- **Maintained for use in editing FMS transactions**
- **Contains the same items as D043 (AF Catalog)**
 - **Contains less data on each item**
 - **Data from D043 is identical**
 - **Contains Interchangeable & Substitutable data**
 - **Contains FMS unique data**
- **Key data displayed on QAID 283 interrogation**

What is a QAID 283 Screen?

AFSA

- **Electronic catalog of all the NSNs that are in Security Assistance Management Information System (SAMIS)**
- **"Read Only" catalog available only through your CRT**
- **Most essential information about each NSN**
- **Most basic reference tool for researching NSNs.**

Why would I request a QAID 283?

AFSA

- **Whenever you have an NSN to research for whatever reason:**
 - **Over 20 data elements available for each NSN**
 - **Some are only needed for in-depth research**
 - **Most basic elements give you:**
 - **Contact point for the NSN**
 - **NSN is valid**

Objectives - Researching Supply Data

AFSA

1. Validate National Stock Number (NSN) data using SAMIS QAID 283

2. Validate NSN data using the AFSAC Online Catalog application

3. Identify a NSN history using SAMIS QAID 180R (Stock Number Interrogation)

4. Identify a NSN history using AFSAC Online (Stock Number Interrogation)

5. Use WebLink to research a NSN

What is a Stock Number Interrogation?

AFSA

QAID 180R - Stock Number Interrogation

- **Research tool showing all requisitions in SAMIS for a given NSN**
- **Search is available within a variety of parameters through your CRT or overnight as a Report.Web product**

Why would I request a QAID 180R?

AFSA

Use QAID 180R - Stock Number Interrogation to identify:

- **History of a specific NSN**
- **All requisitions for your country for that NSN**
- **All requisitions on a specific case and/or line for that NSN**

Common Uses of QAID 180R?

AFSA

- **Identify how many requisitions your country has in SAMIS for a particular NSN.**

This is useful in projecting yearly usage of an item.

- **Identify your country's open requisitions and estimated delivery dates for a specific NSN.**

This is useful in working NMCS and critical conditions because it is easier to ship an existing requisition by upgrading the priority than it is to input and ship a new requisition.

How do I request a QAID 180R?

AFSA

Answer the following questions before accessing the QAID 180R screen:

- 1. Do you need it only for your country or for a specific case and line?**
- 2. Do you need to see the history of all requisitions?**

Objectives - Researching Supply Data

AFSA

1. Validate National Stock Number (NSN) data using SAMIS QAID 283
2. Validate NSN data using the AFSAC Online Catalog application
3. Identify a NSN history using SAMIS QAID 180R (Stock Number Interrogation)
- 4. Identify a NSN history using AFSAC Online (Stock Number Interrogation)**
5. Use WebLink to research a NSN

AFSAC Online - Application Suite

We provide a variety of Business Applications to provide our customers visibility into their country programs.

The re-host of the most commonly used SAMIS queries such as: Requisition History, Catalog Data, Contra and Narrative.

We also provide a number of Logistics and Financial Applications as well as Worldwide Warehouse Applications (WWRS), Tech Index, Parts and Repair Ordering System (PROS) II Monthly Metrics, Letter of Request (LOR) Submission/ Validation and AFSAC Metrics.

We are constantly striving to develop new tools for our customers. Look for account automation features such as automated pass resets and additional AFSAC Online Metrics in upcoming months.

Access our business applications directly from our navigation menu on the left side of all our pages.

- New Tutorials

A link has been added to our menu to access tutorials for our Business Applications. These tutorials are PowerPoint Presentation walk you through each of our various business applications.

AFSAC Online Login - Application Suite

AFSA

A screenshot of a web browser window titled "Web Logon". The window has a grey background and a blue title bar. The text "Air Force Security Assistance Center Online" is centered. Below it, there are two input fields: "Username" and "Password". To the right of these fields are two buttons: "Logon" and "Cancel". At the bottom of the window, the text "Wright-Patterson AFB, OH" is displayed.

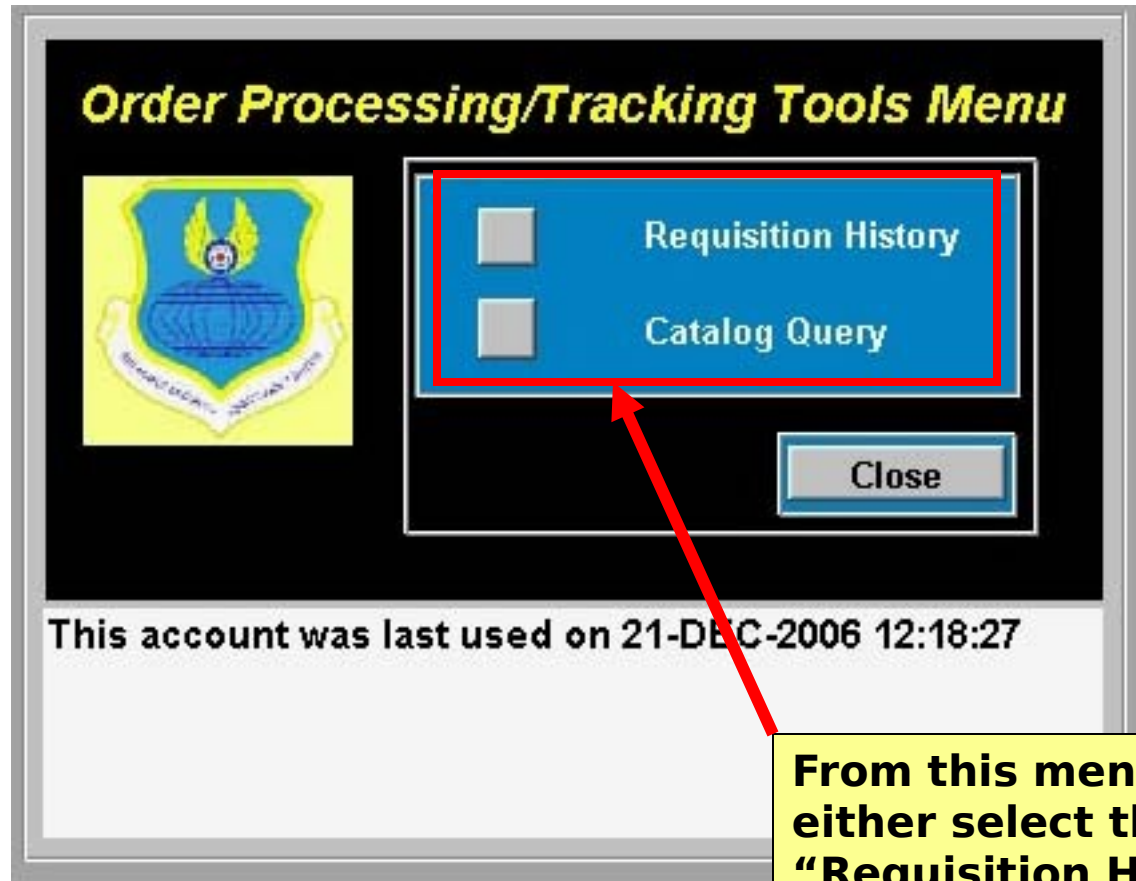

- 1. Use your AFSAC Online ID and Password to access the Application Suite.**
- 2. Then click "Logon" button.**

AFSAC Online Research - Demonstration

WEBLINK International

Section 1 introduces WebLINK International and describes program capabilities. Section 2 describes the sponsorship requirements

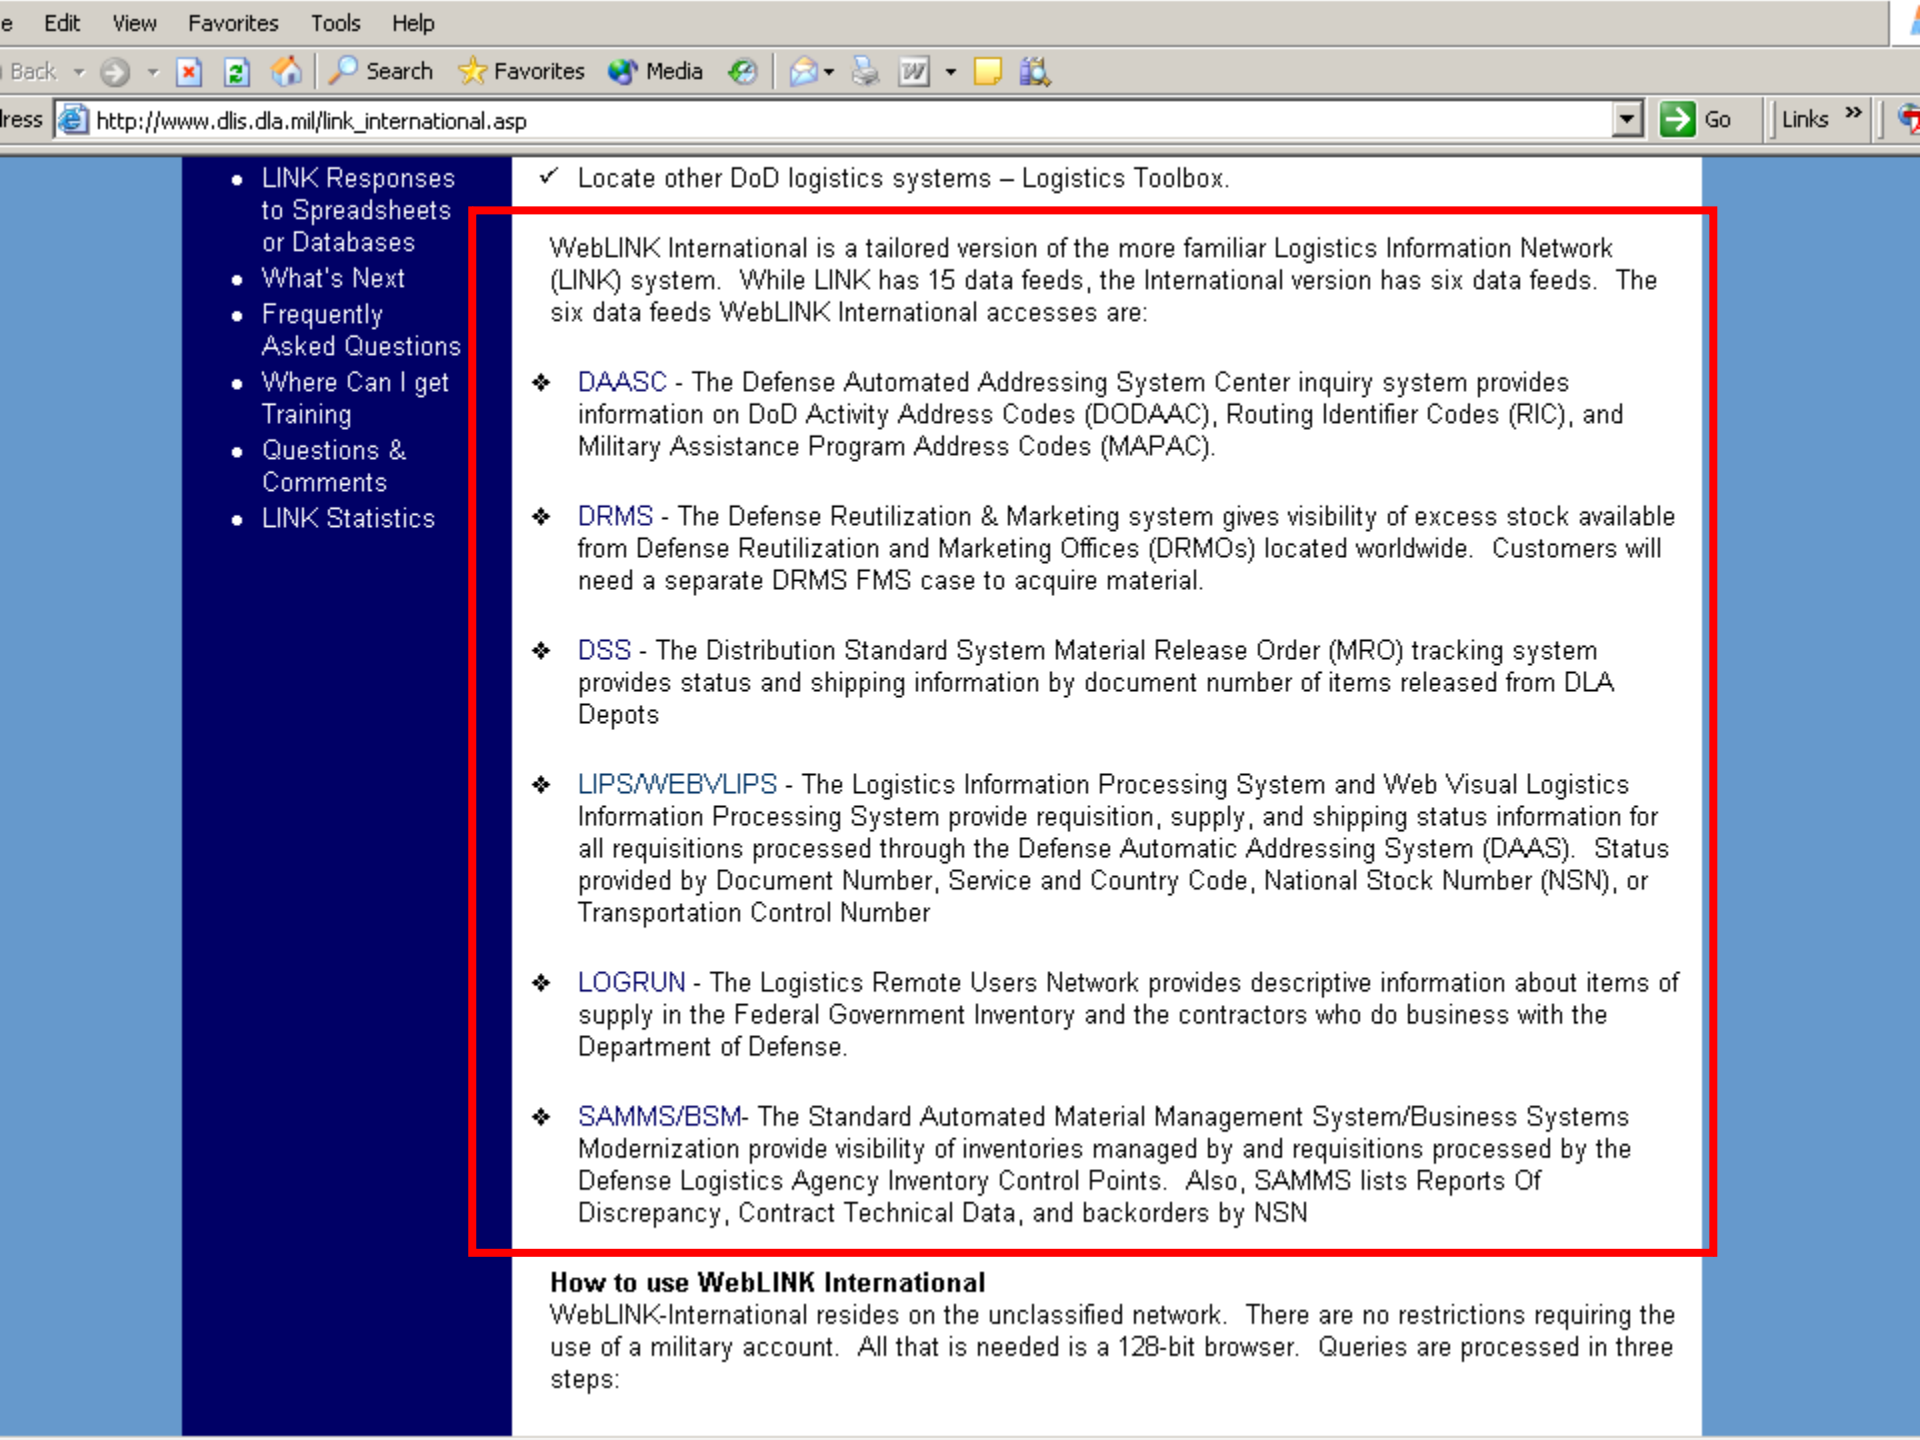

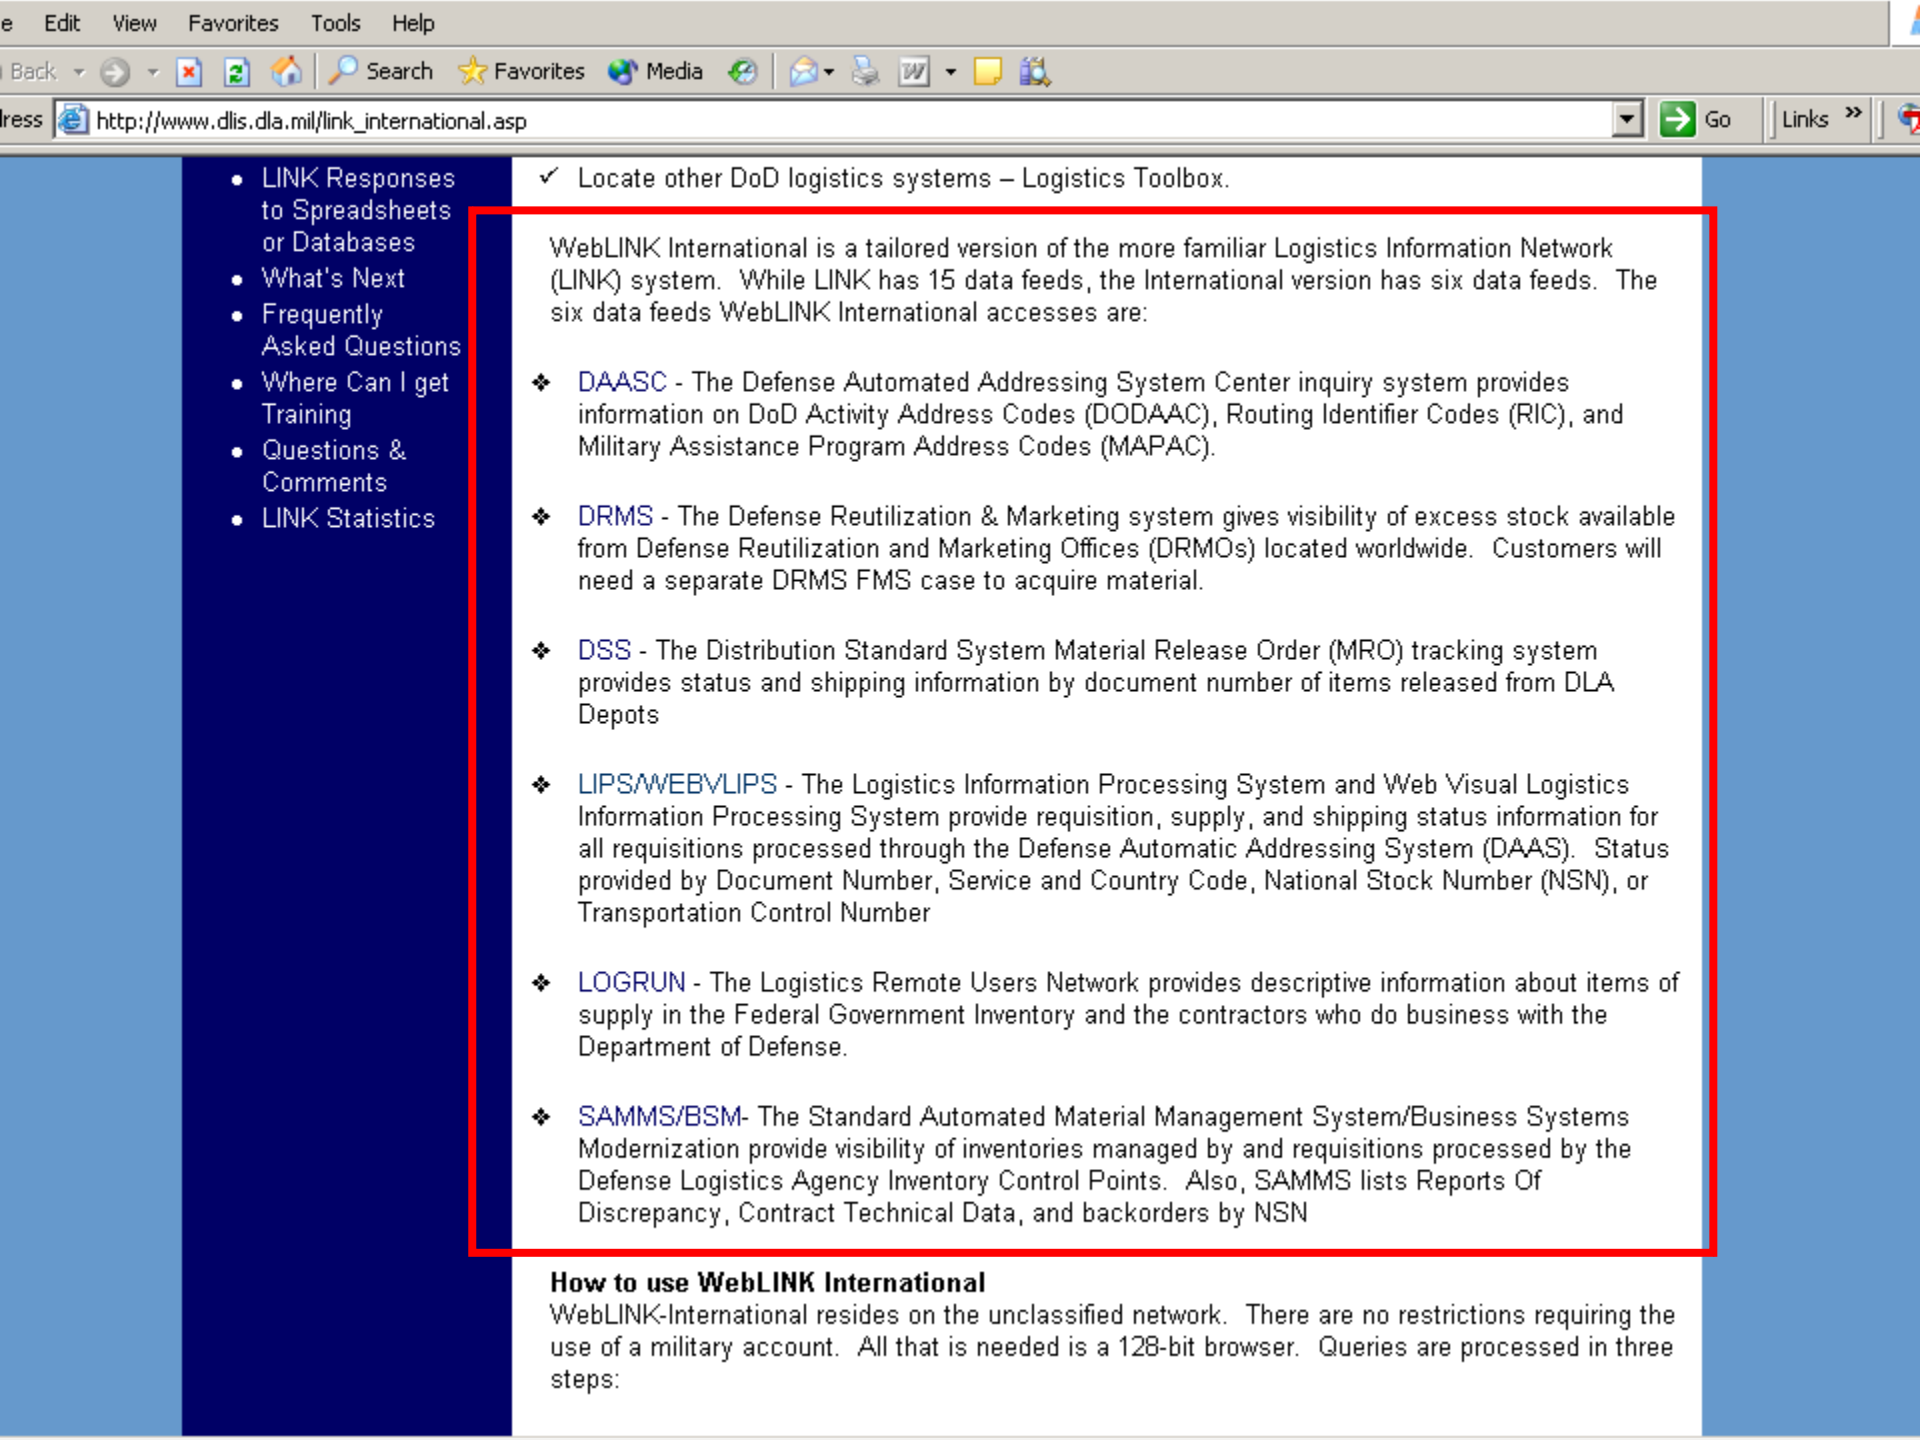

Section I. Description and Capabilities

WebLINK International is a web based, one-step access to multiple databases, which allow a user to research the supply pipeline by country and service. WebLINK International can help the user:

- ✓ Identify an item - Provide information on supplies and parts including part numbers, price, acquisition advice code, source of supply, physical and performance characteristics, and substitutes.
- ✓ Check assets - Check the item manager's inventory to determine if your item is on-hand. Also, use it to locate excess assets.
- ✓ Track status - Track the delivery of your item and show you how and who is moving it.
- ✓ Submit Supply Assistance Requests – Request updates on status of undelivered DLA items.
- ✓ Locate other DoD logistics systems – Logistics Toolbox.

WebLINK International is a tailored version of the more familiar Logistics Information Network (LINK) system. While LINK has 15 data feeds, the International version has six data feeds. The six data feeds WebLINK International accesses are:

- ❖ **DAASC** - The Defense Automated Addressing System Center inquiry system provides information on DoD Activity Address Codes (DODAAC), Routing Identifier Codes (RIC), and Military Assistance Program Address Codes (MAPAC).

✓ **Locate other DoD logistics systems – Logistics Toolbox.**

WebLINK International is a tailored version of the more familiar Logistics Information Network (LINK) system. While LINK has 15 data feeds, the International version has six data feeds. The six data feeds WebLINK International accesses are:

- ❖ [DAASC](#) - The Defense Automated Addressing System Center inquiry system provides information on DoD Activity Address Codes (DODAAC), Routing Identifier Codes (RIC), and Military Assistance Program Address Codes (MAPAC).
- ❖ [DRMS](#) - The Defense Reutilization & Marketing system gives visibility of excess stock available from Defense Reutilization and Marketing Offices (DRMOs) located worldwide. Customers will need a separate DRMS FMS case to acquire material.
- ❖ [DSS](#) - The Distribution Standard System Material Release Order (MRO) tracking system provides status and shipping information by document number of items released from DLA Depots
- ❖ [LIPS/WEBVLIPS](#) - The Logistics Information Processing System and Web Visual Logistics Information Processing System provide requisition, supply, and shipping status information for all requisitions processed through the Defense Automatic Addressing System (DAAS). Status provided by Document Number, Service and Country Code, National Stock Number (NSN), or Transportation Control Number
- ❖ [LOGRUN](#) - The Logistics Remote Users Network provides descriptive information about items of supply in the Federal Government Inventory and the contractors who do business with the Department of Defense.
- ❖ [SAMMS/BSM](#) - The Standard Automated Material Management System/Business Systems Modernization provide visibility of inventories managed by and requisitions processed by the Defense Logistics Agency Inventory Control Points. Also, SAMMS lists Reports Of Discrepancy, Contract Technical Data, and backorders by NSN

How to use WebLINK International

WebLINK-International resides on the unclassified network. There are no restrictions requiring the use of a military account. All that is needed is a 128-bit browser. Queries are processed in three steps:

packaging. It has the ability to import data from text files in order to submit batches of queries. You can schedule your queries to run automatically on a cyclic basis, such as for a requisition status on critical items every morning prior to a meeting. You can receive the responses by your Web browser or via e-mail. And you can download those results into a spreadsheet.

Who can use the International Version?

Foreign liaison officers, foreign exchange officers and other security assistance representatives from countries with Foreign Military Sales (FMS) cases for equipment and who have a need to know are eligible for using the International version. Those personnel meeting the basic eligibility requirements must have authorization from their U.S. Government sponsor. There are four simple steps to registration:

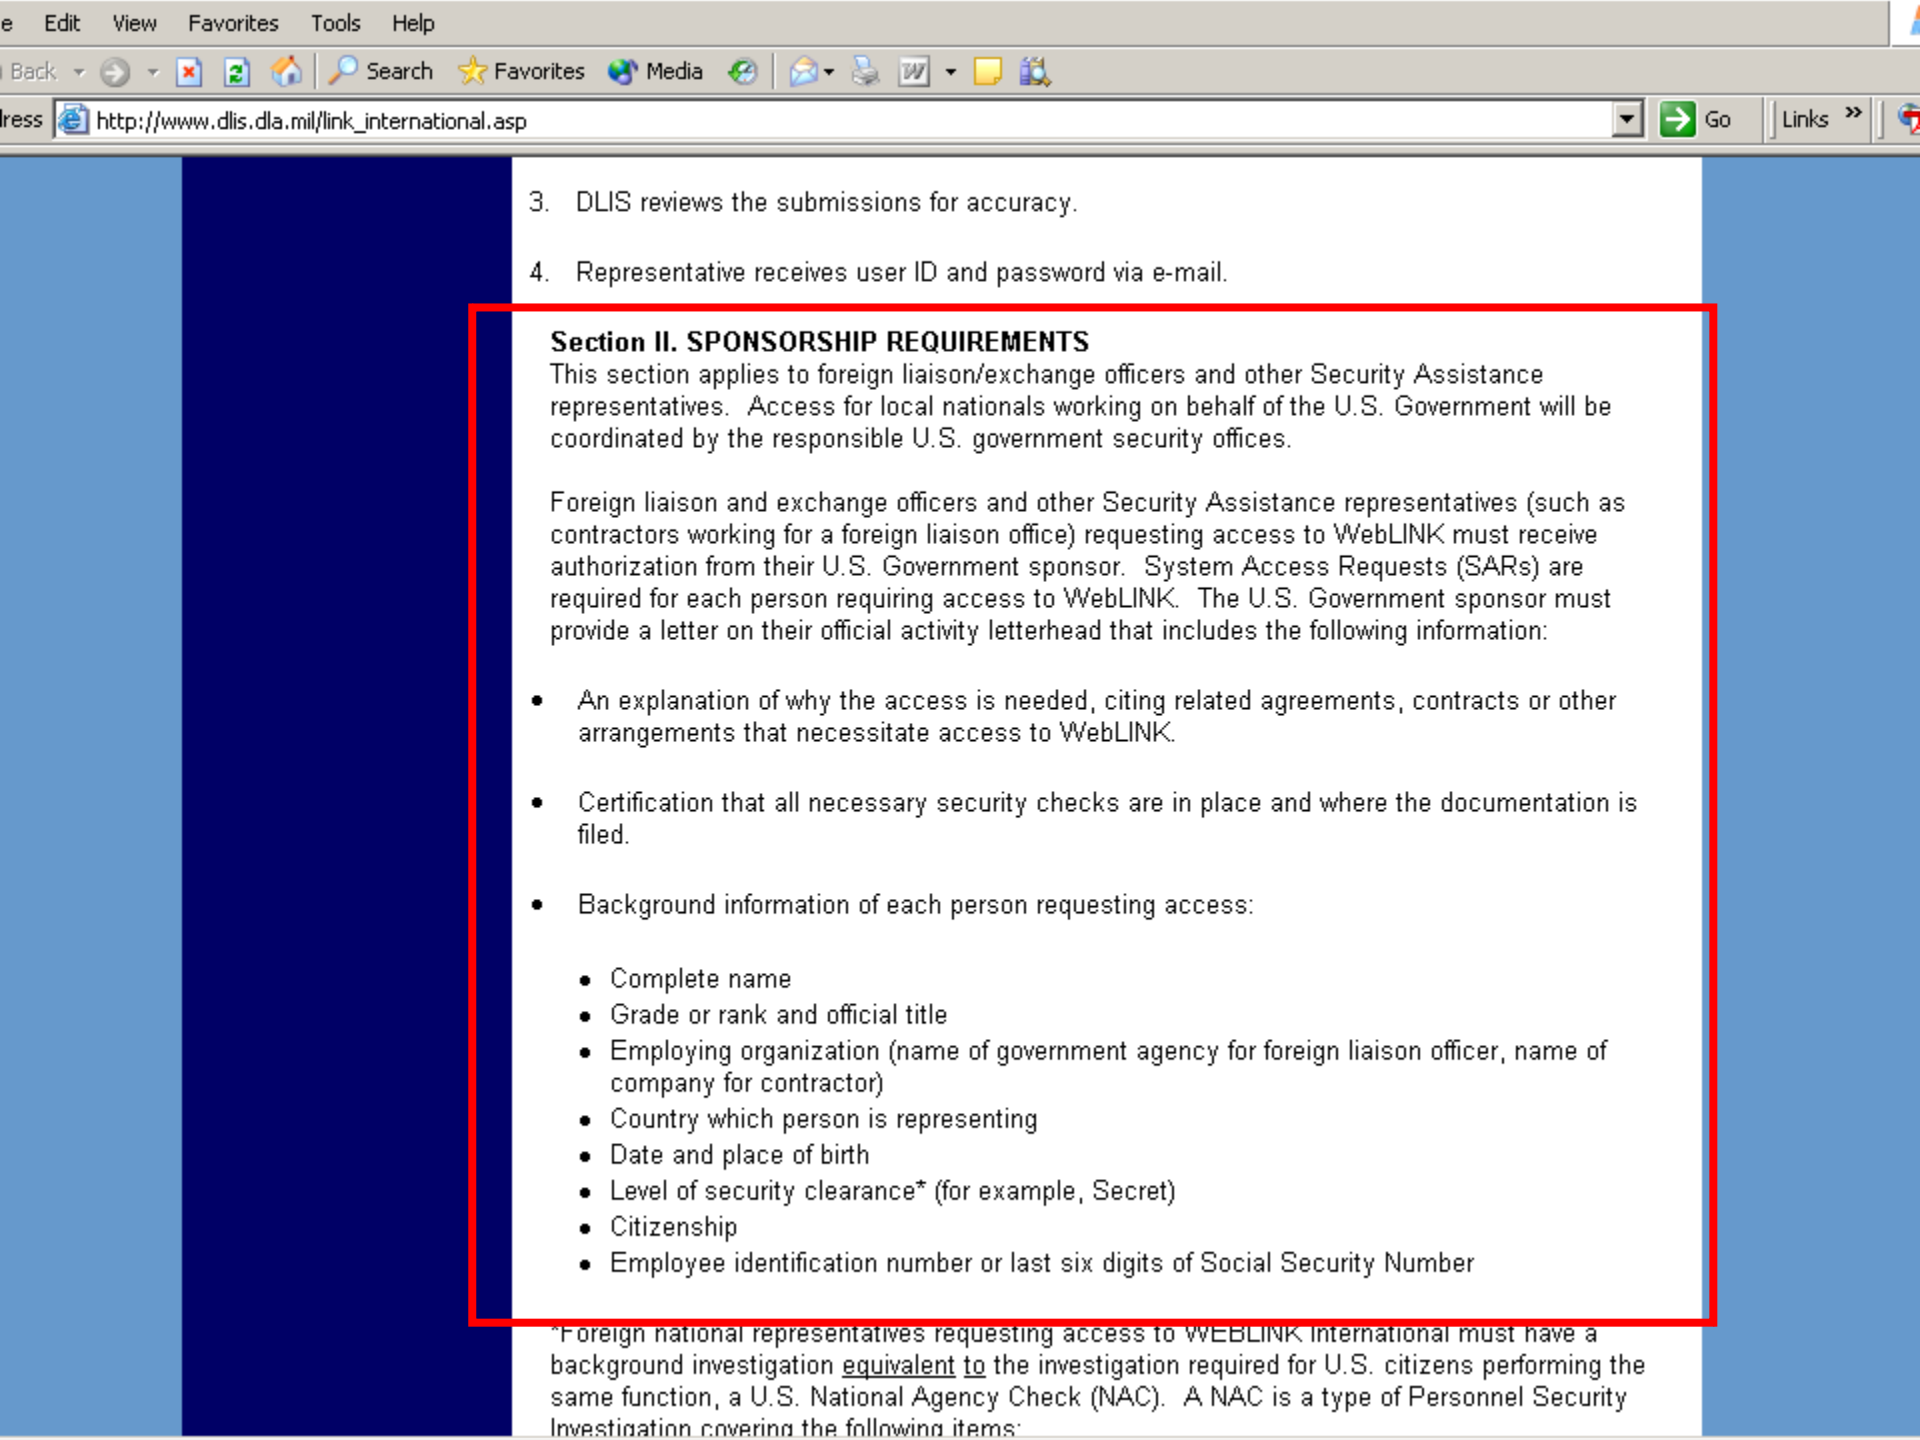

1. The U.S. Government sponsor prepares documentation as outlined below in Section II, Sponsorship Requirements.
2. The requestor registers at https://www.daas.dla.mil/sar/weblink_sar.asp by completing a System Access Request (SAR). One SAR is required for each person requiring access.
3. DLIS reviews the submissions for accuracy.
4. Representative receives user ID and password via e-mail.

Section II. SPONSORSHIP REQUIREMENTS

This section applies to foreign liaison/exchange officers and other Security Assistance representatives. Access for local nationals working on behalf of the U.S. Government will be coordinated by the responsible U.S. government security offices.

Foreign liaison and exchange officers and other Security Assistance representatives (such as contractors working for a foreign liaison office) requesting access to WebLINK must receive authorization from their U.S. Government sponsor. System Access Requests (SARs) are required for each person requiring access to WebLINK. The U.S. Government sponsor must provide a letter on their official activity letterhead that includes the following information:

- An explanation of why the access is needed, citing related agreements, contracts or other arrangements that necessitate access to WebLINK.
- Certification that all necessary security checks are in place and where the documentation is filed.

3. DLIS reviews the submissions for accuracy.

4. Representative receives user ID and password via e-mail.

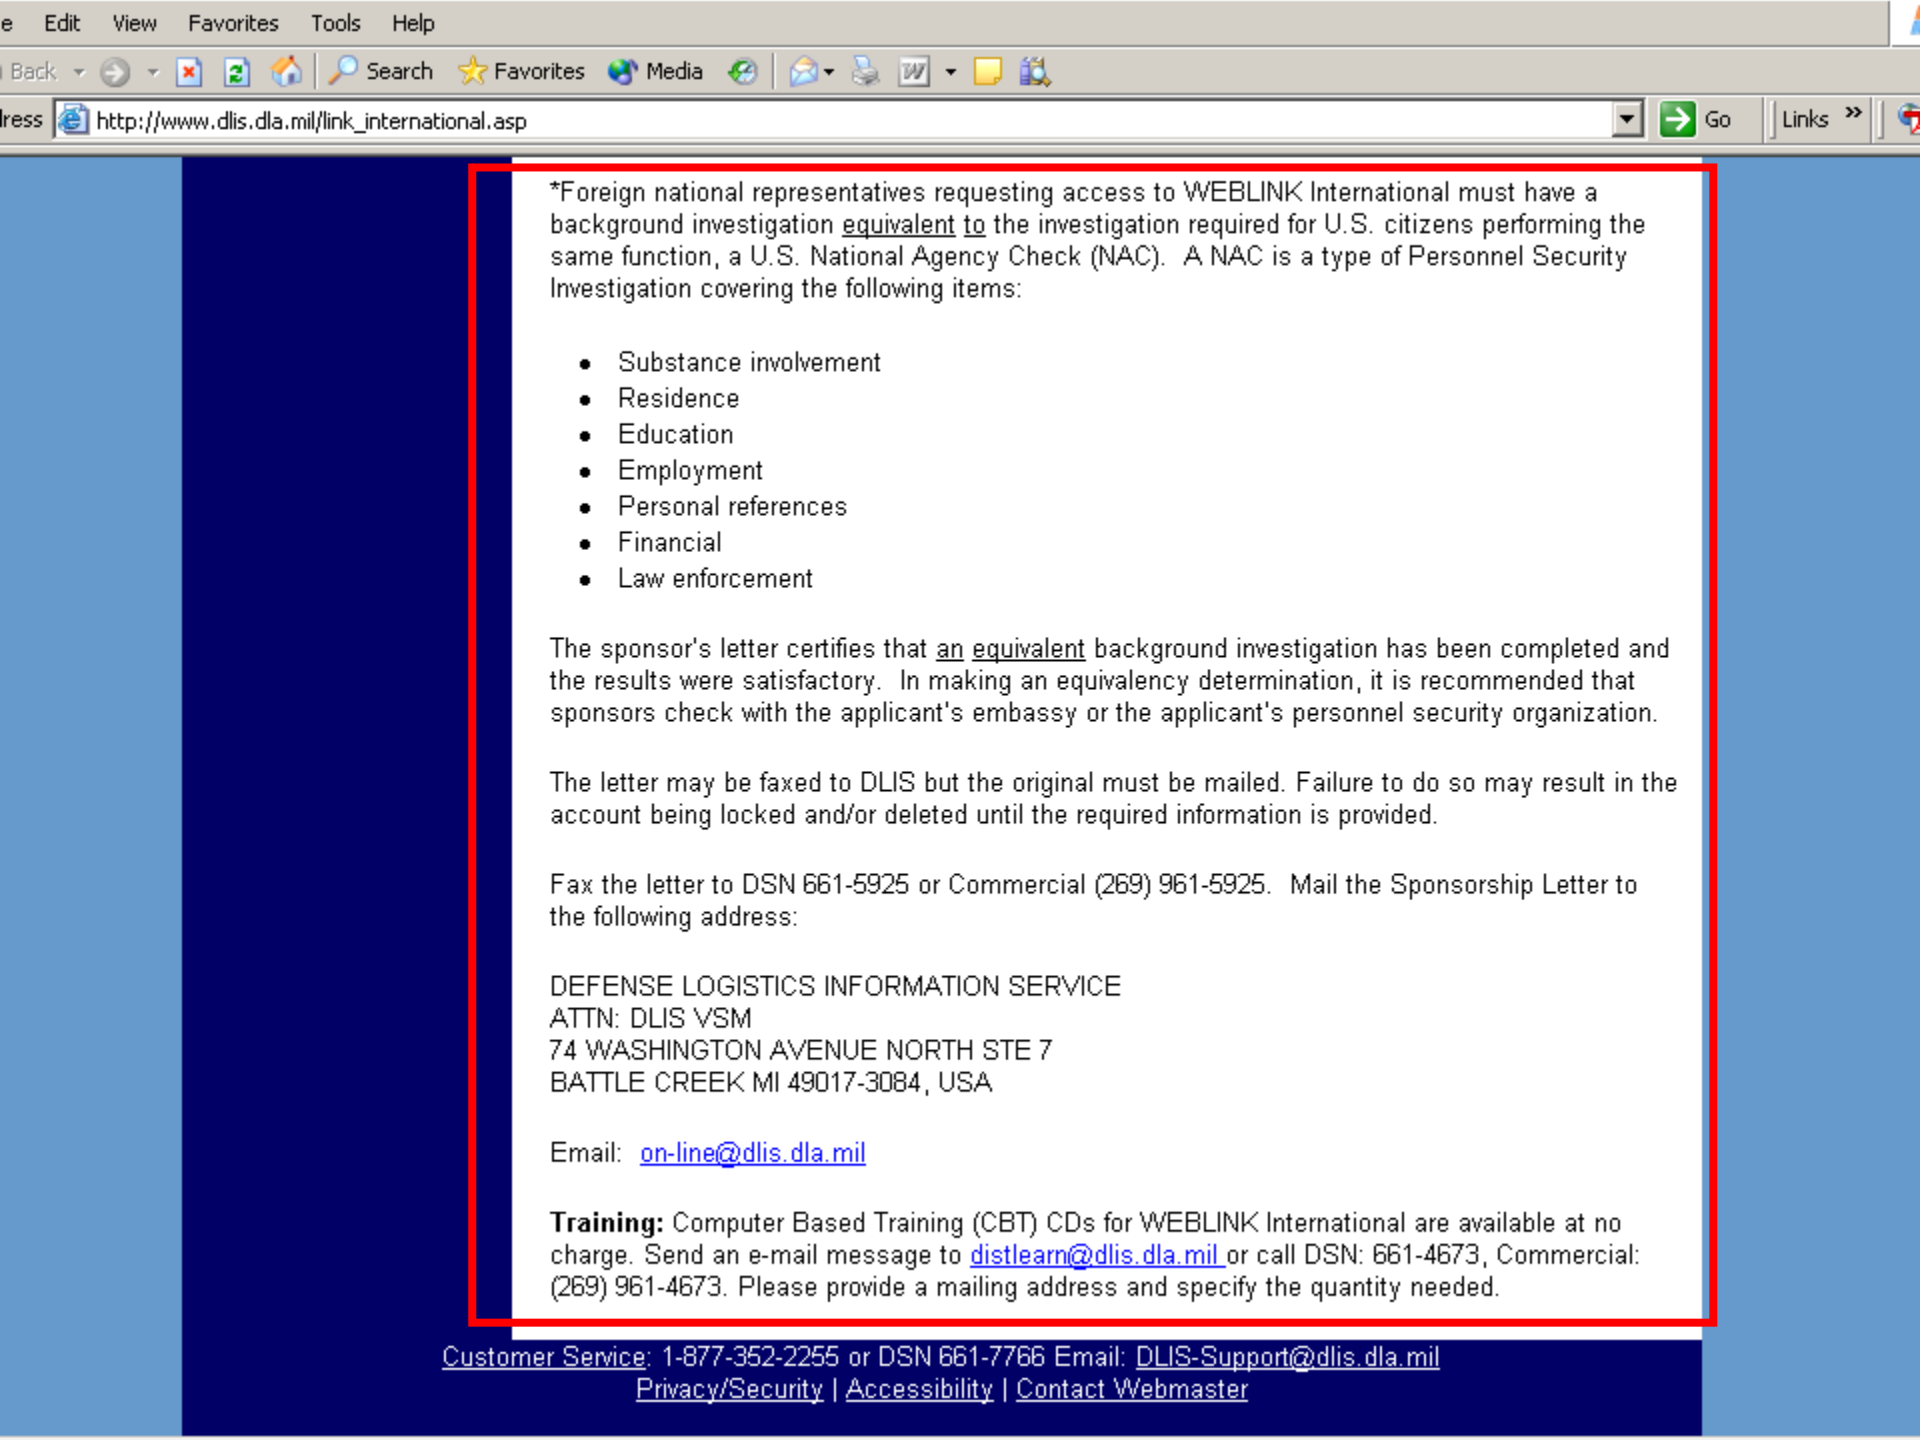

Section II. SPONSORSHIP REQUIREMENTS

This section applies to foreign liaison/exchange officers and other Security Assistance representatives. Access for local nationals working on behalf of the U.S. Government will be coordinated by the responsible U.S. government security offices.

Foreign liaison and exchange officers and other Security Assistance representatives (such as contractors working for a foreign liaison office) requesting access to WebLINK must receive authorization from their U.S. Government sponsor. System Access Requests (SARs) are required for each person requiring access to WebLINK. The U.S. Government sponsor must provide a letter on their official activity letterhead that includes the following information:

- An explanation of why the access is needed, citing related agreements, contracts or other arrangements that necessitate access to WebLINK.
- Certification that all necessary security checks are in place and where the documentation is filed.
- Background information of each person requesting access:
 - Complete name
 - Grade or rank and official title
 - Employing organization (name of government agency for foreign liaison officer, name of company for contractor)
 - Country which person is representing
 - Date and place of birth
 - Level of security clearance* (for example, Secret)
 - Citizenship
 - Employee identification number or last six digits of Social Security Number

*Foreign national representatives requesting access to WEBLINK International must have a background investigation equivalent to the investigation required for U.S. citizens performing the same function, a U.S. National Agency Check (NAC). A NAC is a type of Personnel Security Investigation covering the following items:

*Foreign national representatives requesting access to WEBLINK International must have a background investigation equivalent to the investigation required for U.S. citizens performing the same function, a U.S. National Agency Check (NAC). A NAC is a type of Personnel Security Investigation covering the following items:

- Substance involvement
- Residence
- Education
- Employment
- Personal references
- Financial
- Law enforcement

The sponsor's letter certifies that an equivalent background investigation has been completed and the results were satisfactory. In making an equivalency determination, it is recommended that sponsors check with the applicant's embassy or the applicant's personnel security organization.

The letter may be faxed to DLIS but the original must be mailed. Failure to do so may result in the account being locked and/or deleted until the required information is provided.

Fax the letter to DSN 661-5925 or Commercial (269) 961-5925. Mail the Sponsorship Letter to the following address:

DEFENSE LOGISTICS INFORMATION SERVICE
ATTN: DLIS VSM
74 WASHINGTON AVENUE NORTH STE 7
BATTLE CREEK MI 49017-3084, USA

Email: on-line@dlis.dla.mil

Training: Computer Based Training (CBT) CDs for WEBLINK International are available at no charge. Send an e-mail message to distlearn@dlis.dla.mil or call DSN: 661-4673, Commercial: (269) 961-4673. Please provide a mailing address and specify the quantity needed.
